Butyl Rubber Adhesive Sealing Tape 4-40

- HEAVY DUTY TAPE
- SELF-VULCANISING
- MOISTURE PROOF
- WEATHER RESISTANT
- ALUMINIUM FOIL FINISH TO ONE SIDE

This product is a modified butyl rubber adhesive sealing tape with an aluminium backing, suitable for airduct sealing. It has a very high initial tack.

**Construction**
A compound of an elastomeric, modified butyl rubber adhesive with a laminate of 0.04mm thick aluminium foil which has been treated with a silicone.

**Application**
Internal/external airduct sealing, its weather resistance is excellent, it can be used for roof flashing and repair applications. It provides a water tight and air tight bond which grows stronger with time. No special application skills are required. Drying and heating is not required. The tape should be pressed down firmly onto dry, clean surfaces only.

**Pack Sizes**
- 25mm: 48 rolls per carton
- 38mm: 32 rolls per carton
- 50mm: 24 rolls per carton
- 75mm: 16 rolls per carton
- 100mm: 12 rolls per carton
- 150mm: 8 rolls per carton
- 225mm: 4 rolls per carton
- 300mm: 4 rolls per carton

**Technical Data:**
- Thickness: 0.95mm
- Backing: Bright Aluminium
- Adhesion to Galvanised: 2.0kg/cm
- Bond Time: 24 hours maximum
- Water Resistance: Excellent
- Solids: 100%
- Temperature Range: -20°C / +70°C
- Flammability: DIN4102 B2

Special Offer: Butyl Rubber Adhesive Sealing Tape 4-40 12 Rolls per Carton
